## Software Engineer Summary

A resourceful engineer with expertise in React, TypeScript, and Node.js, known for delivering user-focused applications that solve real-world problems. Experienced in startups and established organizations, blending adaptability, collaboration, and a results-driven mindset to create high-impact solutions. Took a career break from July 2022 to October 2023 to focus on full-time parenting and transitioning into software engineering. A quick learner with a passion for continuous growth, seeking a role that offers clear mentorship, opportunities to expand skills, and the chance to make a meaningful impact within the company.

## Skills

- **Programming Languages:** TypeScript, JavaScript, Python, HTML, CSS, SQL
- **Frameworks/Libraries:** React, Next.js, Node.js, Express, jQuery, Flask, Jest, Jasmine, SCSS, Tailwind, Bootstrap
- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools:** Git, GitHub, DigitalOcean, WordPress, Adobe Photoshop
- **Languages:** English, Russian, Spanish, Turkish

## Experience

### Software Engineer 08/2024 to present *Sync Tech Solutions*

- Engineered Python scripts to automate data processing and generate analytical insights from enterprise datasets.
- Developed SQL queries integrated into automated reporting pipelines with Python.
- Delivered software support and enhancements, reducing issue resolution time by 25%.
- Collaborated with clients to gather requirements, delivering customized solutions meeting 90% of objectives.

### Software Engineering Trainee 01/2024 to 10/2024 *Springboard*

- Designed, developed, and deployed two full-stack applications with React and Node.js.
- Built RESTful APIs and backend services with Node.js, Express, and Python and optimized SQL databases to ensure robust communication between services.
- Practiced test-driven development, writing over 50 unit tests for application reliability.
- Contributed to Agile teams, delivering features ahead of schedule in 90% of sprints.

### Front-End Developer 10/2023 to 03/2024 *La Leche League USA*

- Led the creation of a responsive admin dashboard with React and Tailwind CSS.
- Migrated legacy jQuery components to modern React architecture.
- Streamlined development with reusable components, reducing feature delivery time by 30%.
- Designed and integrated RESTful APIs to support seamless front-end and back-end communication.
- Crafted and implemented a MySQL database schema with over 15 tables, supporting the organization's operational requirements.

### Quality Assurance Supervisor 01/2018 to 07/2022 *Sentry Management Solutions*

- Implemented digital transformation projects, introducing and customizing CRM systems.
- Designed quality assurance workflows, identifying trends and driving process improvements.
- Supervised and trained a team of 100+ agents, boosting productivity by 30%.
- Authored detailed operational documentation to ensure consistency across teams.

## Education

### Software Engineering Bootcamp Certificate *Springboard*

### Bachelor of Arts *Azerbaijani University of Languages*
