- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools:** Git, GitHub, Figma, DigitalOcean, WordPress, Adobe Photoshop, Celigo, Microsoft Business Central, Klaviyo
- **Languages:** English, Russian, Spanish, Turkish

Experience

Web Solutions Developer

02/2025 to present

Item Inc.

- Develop and optimize ERP integrations for seamless system communication.
- Build and maintain custom JavaScript for dynamic UI components.
- Assist in backend development, including Laravel Blade views.
- Identify and resolve technical challenges to improve digital operations.

Software Engineer

08/2024 to 01/2025

Sync Tech Solutions

- Engineered Python scripts to automate data processing and generate analytical insights from enterprise datasets.
- Developed SQL queries integrated into automated reporting pipelines with Python.
- Delivered software support and enhancements, reducing issue resolution time by 25%.

Software Engineering Trainee

01/2024 to 10/2024

Springboard

- Designed, developed, and deployed two full-stack applications with React and Node.js.
- Built RESTful APIs and backend services with Node.js, Express, and Python, and optimized SQL databases to ensure robust communication between services.
- Practiced test-driven development, writing over 50 unit tests for application reliability.

Front-End Developer

10/2023 to 03/2024

La Leche League USA

- Led the development of a responsive admin dashboard with React, TypeScript, and Tailwind CSS.
- Designed and integrated RESTful APIs to support seamless front-end and back-end communication.
- Crafted and implemented a MySQL database schema with over 15 tables, supporting the organization's operational requirements.

Quality Assurance Supervisor

01/2018 to 07/2022

Sentry Management Solutions

- Implemented digital transformation projects, introducing and customizing CRM systems.
- Designed quality assurance workflows, identifying trends and driving process improvements.
- Supervised and trained a team of 100+ agents, boosting productivity by 30%.
- Authored detailed operational documentation to ensure consistency across teams.

Education

Software Engineering Bootcamp Certificate

Springboard

Bachelor of Arts

Azerbaijani University of Languages
